

TIME-TESTED RELIABILITY FOR TODAY'S CLASSROOMS.

The Valedictorian® keeps an established product up-to-date with an impressive list of features and options. It is designed to blend in with the architectural integrity of your school, both inside and out. And, more importantly, it's an invaluable investment in supplying the required fresh air to your classrooms.

The Valedictorian delivers:

- Reduced noise
- Improved efficiency
- Exceptional retrofit/replacement capability
- Multiple sizes and options

Its name says it all. The Valedictorian is truly the head of its class.

UNDER-THE-WINDOW
VERTICAL UNIT VENTILATOR

TEACHERS, ADMINISTRATORS AND FACILITY MANAGERS ALL AGREE, MODINE RECEIVES TOP SCORES.

Teachers love the quiet. Administrators love the low operating costs. Facility managers love the low-maintenance and serviceability. The Valedictorian has been perfected to continue to deliver what's important for schools today ... fresh air for a safe and healthy learning environment.

The Valedictorian has something for everyone, whether an administrator, teacher, student or service technician.

Noise reduction for a better learning environment.

- The motor is mounted outside the airstream to isolate vibration in the bearings and driveshaft, holding noise to a minimum
- The heavy-duty cabinet further reduces decibel levels

Multiple capacity options for any class size.

- A full range of sizes are offered — 750, 1,000, 1,250 and 1,500 CFM — making the Valedictorian suitable for almost any classroom size

Improved efficiency saves resources and money.

- The coils on the Valedictorian are designed for optimal temperature and pressure drops making the unit more efficient, putting energy dollars back in the school's pocket
- Full economizer mode allows you to enjoy free outside-air cooling during favorable environments

14-Gauge cabinets with pencil-proof clear anodized aluminum bar grilles are available in a variety of one or two-tone colors.

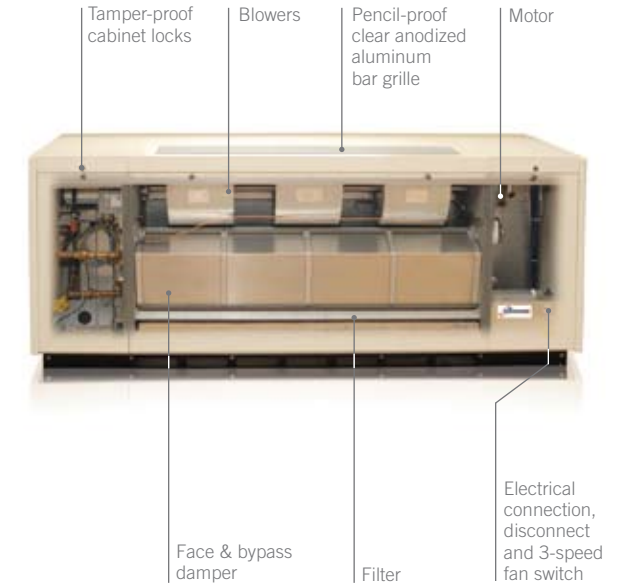

Actuator and cooling coils

Durability to withstand tough classroom environments.

- Standard 14-Gauge cabinet panels make the Valedictorian the most damage-resistant unit ventilator on the market
- Textured, fingerprint-free hammertone finish

Improved serviceability means less time spent on maintenance.

- Modular design allows easy access and removal of all critical components
- Cabinet end pockets centralize the location of components

OPTIONS AND ACCESSORIES

Modine makes it easy to customize the unit to fit into any classroom.

- Wide selection of outdoor louvers designed to blend into facade
- Valve and control utility compartments are available to match unit color and finish
- Hot water heating coils available
- Multiple inlet air arrangements to accommodate various sill and louver heights
- Factory installed valve package
- Available in a variety of one or two-tone colors
